

## Worry less. Enjoy more.

Marine Weather Center Provides Adaptable Forecasts & Routing Advice for a Safer, Smoother Voyage.

### DEPENDABLE

Provided by Marine Meteorology Experts, with experience on small boats, sail and power vessels

### FLEXIBLE

Designed for any sail duration, available nearly worldwide, and via almost any communications device

### AFFORDABLE

Services start at about \$1/day, offer value exceeding competitors, and can be tailored to your needs

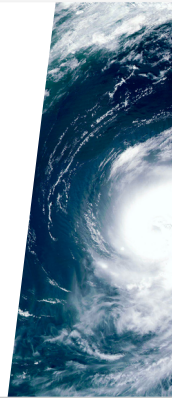

### Webcasts / SSB Radio Voice Nets

SSB Radio (transceiver is best, but receive-only is also an option). Webcasts require Internet (Audio-only works well on 3G cellular)

### Daily Regional Email Forecasts

Region-specific weather info for better boating decisions, about \$1/day. Delivered to your inbox in plain-text format.

### Custom Forecast & Route Planning

Forecasts, routing advice, & tactics specific to your vessel & itinerary - direct communication with meteorologists.

## Service Combos

Bundle our services for the best value and a higher level of support. Combos that offer the best value are highlighted in green in the tables to the right.

### The Complete Package

includes access to Webcasts/SSB Radio + Regional Email Forecasts with the option to add a 5- or 10-pack of custom forecast credits.

### Regional Email + Custom Forecasts

includes access to our Regional Email Forecast services with the option to add a 5- or 10-pack of custom forecast credits.
