

Worry less. Enjoy more.

Marine Weather Center Provides Adaptable Forecasts & Routing Advice for a Safer, Smoother Voyage.

DEPENDABLE

Provided by Marine Meteorology Experts, with experience on small boats, sail and power vessels

FLEXIBLE

Designed for any sail duration, available nearly worldwide, and via almost any communications device

AFFORDABLE

Services start at about \$1/day, offer value exceeding competitors, and can be tailored to your needs

Webcasts / SSB Radio Voice Nets

SSB Radio (transceiver is best, but receive-only is also an option). Webcasts require Internet (Audio-only works well on 3G cellular)

Daily Regional Email Forecasts

Region-specific weather info for better boating decisions, about \$1/day. Delivered to your inbox in plain-text format.

Custom Forecast & Route Planning

Forecasts, routing advice, & tactics specific to your vessel & itinerary - direct communication with meteorologists.

Service Combos

Bundle our services for the best value and a higher level of support. Combos that offer the best value are highlighted in green in the tables to the right.

The Complete Package

includes access to Webcasts/SSB Radio + Regional Email Forecasts with the option to add a 5- or 10-pack of custom forecast credits.

Regional Email + Custom Forecasts

includes access to our Regional Email Forecast services with the option to add a 5- or 10-pack of custom forecast credits.

The Complete Package
